Madrid – Spain

For the attention of: Mr Kasra AFSHAR

Abu Dhabi, the 15th day of April 2026

Subject: Reference Letter to PROPIPE

Dear Mr Afshar,

TotalEnergies EP Ratawi Hub hereby provides this letter of reference for PROPIPE further to the successful execution of manufacturing and related services supporting hot tap operations on gas pipelines in Iraq, including the supply of split-tee fittings.

The scope of services performed by PROPIPE included, but was not limited to:

- Purchase of raw material
- Manufacturing split-Tees
- Post Weld Heat Treatment (PWHT)
- Welding activities
- Machining for both split-tee fittings and hot tapping tools
- Finite Element Analysis

PROPIPE demonstrated strong technical competence, professionalism, and a high level of flexibility in adapting its work to TotalEnergies' challenging schedule. PROPIPE also leveraged the industrial environment in Madrid to subcontract selected services when required, while maintaining full control of delivery, traceability, and quality assurance to the TotalEnergies standards.

Based on our experience, we consider PROPIPE a reliable contractor for split-tee manufacturing and related welding, PWHT, and machining activities in support of hot tapping operations on gas pipelines, and we would recommend PROPIPE for similar scopes of work.

Should you require any additional information, please do not hesitate to contact us.

Yours sincerely,

Nicolas GENTON
Quality Manager for Gas Midstream Project
